

Name _____

1. Use the partial hundred chart to subtract tens.

41	42	43	44	45	46	47	48	49	50
51	52	53	54	55	56	57	58	59	60
61	62	63	64	65	66	67	68	69	70
71	72	73	74	75	76	77	78	79	80

$80 - 30 = \underline{\quad}$

- (A) 80 (B) 70 (C) 60 (D) 50
-

2. Use the place-value blocks to find the difference.

$50 - 20 = \underline{\quad}$

- (A) 10 (B) 20 (C) 30 (D) 40
-

3. Use the open number line to solve. Show your work.

$70 - 30 = \underline{\quad}$

4. Solve the problem. Use any strategy. Explain why you picked the strategy.

$$90 - 50 = \underline{\quad}$$

Use mental math to solve.

5. $52 - 10 = \underline{\quad}$

6. $87 - 10 = \underline{\quad}$

7. $66 - 10 = \underline{\quad}$

Use addition to solve each subtraction problem.

8. $40 + \underline{\quad} = 60$, so

$$60 - 40 = \underline{\quad}.$$

9. $20 + \underline{\quad} = 70$, so

$$70 - 20 = \underline{\quad}.$$

10. Mari has 80 sports cards. She gives 40 cards to her brother. How many cards does Mari have left?

Write an equation to solve. Use drawings or models to show your work.

$\underline{\quad}$ cards

Back to School

A store sells school supplies in boxes of 10.

1. The store sells 5 boxes of crayons. How many crayons are left? Use the open number line to solve.

←—————→ _____ crayons

2. Cara buys 10 pencils at the store. How many pencils are left on the shelf? _____ pencils

3. The store sells 20 glue sticks. Then Mr. Diaz buys the rest of the glue sticks. How many glue sticks does Mr. Diaz buy? Use the partial hundred chart to solve. Then write an equation.

11	12	13	14	15	16	17	18	19	20
21	22	23	24	25	26	27	28	29	30
31	32	33	34	35	36	37	38	39	40

_____ ○ _____ = _____

_____ glue sticks

4. Ms. Davis buys 5 boxes of erasers. She gives away 10 erasers. How many erasers does she have left?

Solve the problem. Use one of the strategies you learned. Show how you solved the problem.

- number line
- hundred chart
- think addition to subtract
- blocks

_____ erasers

5. Paul buys 27 pens. Gina buys 10 fewer pens than Paul. How many pens does Gina buy?

You can use these tools.

- picture
- blocks
- hundred chart
- number line
- another tool

Part A

What strategy could you use to solve the problem?

Part B

Write an equation and solve the problem. Show how you solved it.

_____ ○ _____ = _____

_____ pens
